

WT launches a new fund

WT has in May 2021 established a new real estate investment fund named WT Property Fund II.

The new fund follows on WT Property Fund I's successful path as a responsible real estate investment fund focused on Finnish commercial real estate.

The newly launched fund makes both direct and indirect investments in commercial real estate located in the largest cities of Finland.

Targeted size of the fund is up to €300 million, and its investors are Varma Mutual Pension Insurance Company, The State Pension Fund of Finland, and Tradeka-Invest Ltd.

In addition to VVT I and VVT II -funds, VVT's organization manages the NV Property Fund I established in 2006. In the end of year 2020, the overall assets managed by the organization (AUM) totaled to nearly €300 million.
